20 DFW GUTTER LEADS

Nathan Lee — FORT WORTH

I am looking for a general purpose handy crew that can do exterior painting, install new gutters, repair soffit and replace bad wood. I am looking to get this work completed before the end of the year. I will take four (written) quotes and award the work to the most cost effective and the one with the most competent approach to the job. Reach out to schedule a date and time to see the work or to get additional information. I will call you to schedule a visit. Thanks.

Juan Ramirez — DALLAS

OK, I asked for experience with leaf filter got a quote yesterday. I can't afford $17,000 for new gutters and gutter covers and a bunch of stuff $17,000. OK you tell me it was expensive so does anybody have any experience with a local company that is maybe small family owned company that puts gutter guards on and possibly some of the guttering needs to be changed. I'm not sure but in that case I still would like some other references, please and thank you.

Evelyn Montero — DALLAS
